## Exciting News:

### The Little Gracie II and the GMQ-Pro will now be shipped with the Professional Series Carriage Upgrade and Speed Control!!

The upgrades will be available on the next shipment after the end of March, 2010.

*"Upgrading these frames with our professional, sleek metal carriages will go a long way in adding value to these products. The professional carriage construction enhances stitch quality, accuracy, and improves the carriage motion. The carriage also includes precision bearings, back and front comfort grips, and accessory holes and mounts. The handle location allows for easy access to the machine and thread. Machine base clamps are also included to hold your machine firmly in place."*

GMQ-Pro

Little Gracie II

Both frames shown in "Crib size". GMQ can be set up in three different sizes (Crib 70", Queen 104" and King 128") and LGII can be set up in two sizes (Crib 64" & Queen 98").

The **Speed Control** is a foot pedal control replacement to run the sewing machine at the touch of a button. The single prong foot pedal plug-in is the "universal" type however, a three-prong version is available – check for compatibility.

We "drop-ship" Grace Frames directly to your street address.

Little Gracie II shown at right with wooden carriage. The wooden carriage is still available in place of the professional series carriage upon request. The wooden carriage is required for sewing machines not compatible with the speed control.

The following is a list of machines that the Grace Speed Control is compatible with. If a machine is not on this list, it may not work with Grace Speed Control, because it has not been tested.

  - Perfect for home sewing machine applications: quilting, piecing, appliqué, free motion designs.
- 3000 yd cones \$15.99; 6000 yd cones \$27.99  
For available colours, check out:  
<http://www.harmonyhanddyes.com/Threads.html>

We now stock a limited number of colours of Signature Thread. Special orders are available for all other colours including variegated cones. Check out our website.

### Shiva Paintstiks

What is a Paintstik?...Artist quality, solid paint in stick form. It can be heat set on fabric for a permanent, washable finish.

Use directly on fabric like a crayon, or use textures under the fabric for rubbings (try using the side of the Paintstik rather than the tip). Or take a stencil brush and load it with the paint – blend and brush colours in stencils you purchase or create your own with freezer paper. Check out [www.harmonyhanddyes.com/InstructShiva.html](http://www.harmonyhanddyes.com/InstructShiva.html)

### New Stencils Available

They are packaged in sets of 2 - use with Shiva Paintstiks or all your other craft ideas.

CCT701 Birch; CCT702 Ginko; CCT703 Oak; CCT704 Maple.  
Each set of 2 \$12.44
